Orned Technologies Inc.  
2600 East Hemberg Drive  
Flagstaff, AZ 86004-6853

Dear Mr. Evans II,

This is our 2<sup>nd</sup> Season using the CV-700 Catalytic Enzyme & Phosphate Remover Pool Water Cleaner made by Orned Technologies Inc. and distributed by SCP Distributors. We would like to mention that we are very pleased with the results of your product. It maintains our phosphate level and has all but eliminated the need to shock treat our pool after our heavy bather load from our weekly party, REHAB. It has also lowered our chlorine usage and we use less pool clarifier.

Our pool holds over a half million gallons of water and it has 4 sand beaches, 3 water features including a water fountain and slide and with our large bather loads and high temperatures this makes it one of the toughest commercial pools to maintain.

We look forward to a successful and continued business relationship.

Thank you,

A handwritten signature in black ink, appearing to read "John Valero". The signature is fluid and cursive, with a long horizontal line extending to the right.
