Dear Mr. Kersey,

I wanted to drop you a note letting you know that the use and promotion of your Scale and Metal Control, Phosphate Remover, and Enzyme plus Phosphate Remover Products has been a large success in my retail store. All of the claims made by your company have proven to be absolutely accurate and reliable. Controlling Phosphates and promoting the use of your Phosphate Free Sequest SC-1000 has been an excellent decision for us. Controlling Organics and Phosphates with CV-700 clearly assists the sanitation process and reduces our customer's chlorine consumption.

We recommend that the entire industry open up their thinking to these products, they have changed the way we do business. We intend to promote these products in the future. I believe we owe it to our loyal customers. If you should need an endorsement feel free to have your customers give me a call. These products work!

Joe Giddens  
Retail Manager  
Riverbend Sandler Pools
